The routes followed are circular in nature taking in Northamptonshire's rolling countryside and picturesque villages.

There are no closed roads so please be aware of other road users at all times. There are some right turns and cross roads, it is your personal responsibility to cross safely – it is a long event so waiting for a minute or two to cross will not make a major difference. You are invited to the ridewithGPS event by scanning the QR code below (it is free and included in your event package), you need to pick the distance you are riding and the app will give you voice navigation cues throughout the ride, just like your sat nav.
